Professional Summary

Java full stack developer (B.Tech in Computer Science, 2026) with hands-on training in Core Java, OOP, Spring Boot, REST APIs and SQL. Built database-driven web applications with PostgreSQL and MySQL, containerised projects with Docker, integrated third-party APIs (Twilio) and worked in team Git and GitHub workflows. Currently a software development intern at QSpiders, building application modules. Available to join immediately.

Technical Skills

Languages: Java (Core Java, OOP), Python, SQL, JavaScript, C
Backend: Spring Boot, REST APIs, Node.js, Flask
Frontend: HTML, CSS, JavaScript, Bootstrap
Databases: PostgreSQL, MySQL
Tools and DevOps: Git, GitHub, Docker, Postman, IntelliJ IDEA, Eclipse
Core Concepts: Object-Oriented Design, REST API Development, Relational Database Design, Full Stack Web Development

Experience

Software Development Intern and Trainee, QSpiders | Present
- Completing an intensive full stack development program in Java, SQL and Spring Boot.
- Applying object-oriented design principles to build and test application modules.
- Writing SQL queries and working with relational databases to support application features.

Full Stack Development Trainee, NxtWave CCBP 4.0 (Online) | 2023 to Present
- Building responsive web applications through project-based full stack learning.
- Practising front end development with HTML, CSS, JavaScript and Bootstrap alongside back end logic.

Data Analyst Intern, Proxenix (Online) | Jun 2022 to Jul 2022
- Cleaned and preprocessed datasets and prepared analytical reports.

Projects

Online Flight Ticket Booking System (Team Project) | Java, Node.js, PostgreSQL, MySQL, Docker, HTML, CSS, JavaScript
- Built a responsive full stack web application to search, book and manage flights, backed by a PostgreSQL database.
- Designed relational tables and wrote SQL queries for bookings, users and schedules.
- Containerised the application with Docker and collaborated with the team using Git and GitHub.

Campus Response System (Major Project) | Node.js, PostgreSQL, Twilio API
- Developed an IVR system that automates college queries, manages FAQs and call logs, and dispatches notifications.
- Integrated the Twilio API with a Node.js backend to handle incoming calls and respond through menu-based voice prompts.
- Designed the PostgreSQL schema for FAQs, call logs and notification records, and wrote SQL queries to retrieve and update them.
- Reduced manual handling of routine student enquiries by automating answers to frequently asked questions.

AI Resume Analyzer (Minor Project) | Python, Flask, HTML, CSS, JavaScript, Bootstrap
- Built a Flask web application that evaluates uploaded resumes and displays feedback to the user.

Education

B.Tech in Computer Science Engineering, College of Engineering Cherthala, Alappuzha | May 2026 | CGPA: 7.0
Higher Secondary (Class XII, State Board), Lourdes Matha HSS, Pacha, Alappuzha | May 2022 | 87%
Secondary (Class X, CBSE), Georgian Public School and Junior College, Edathua, Alappuzha | May 2020

Leadership

Treasurer, IEEE CEC Student Branch | Communication Head, Placement Cell, CEC | Program Coordinator, CEC | Connection Officer, SPACE

Languages

English, Malayalam (Native)
